### Greetings from GSV!

Today Covid-19 Pandemic has led to the closure of schools in 188 countries, effecting more than 1.5 billion students and 63 million primary and secondary teachers worldwide.

The interference in the education system due to the continuous Covid-19 is a reminder that there is a need for transformation. For years we have been talking about digital transformation, but were in some undefined future.

Well, that future is here !

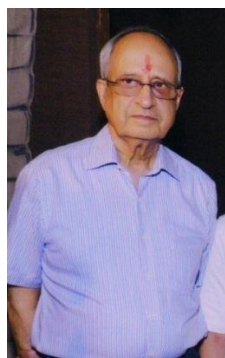

We are glad to share that our teachers have started taking online classes and approximately 182 students are getting benefited with this.
